## Education

B.tech in Computer Science and engineering

JECRC UNIVERSITY, Jaipur  
2021-2024

9.15 / 10

Higher Secondary Education

RBSE Board  
2021

99.04 / 100

High School

RBSE Board  
2019

92.17 / 100

## skills

**Languages :** C++ , Javascript

**WebStack**

**Frontend:** HTML , CSS , JavaScript  
React.js

**Backend:** Node.js , Express

**Databases:** Mysql , MongoDB

Data structures , Algorithms , Bootstrap ,  
Vs code , Canva , Streamlit , GitHub ,

# Jashank Jain

## Achivements

- Rated **5★(C++) on Hackerank** , a competitive coding platform
- Rated **2★(C++) on Codechef** , a competitive coding platform
- Above **100 days** of POTD solving streak on leetcode
- Ranked under **top 5** in prelim of SIH ( Smart india Hackathon'23)
- Ex - Core Design Team member | Coding ninjas JECRC
- Ex - member | Ju Makerspace

## Projects

### Financial\_Fraud\_Detection

Worked with a team at Rajasthan IT hackathon.... Machine learning algorithms that analyzes the user's input data and financial information to detect fraudulent activities. Integrated the model into the user interface. making it easy for users to input transactions and get real-time alerts

[Try this](#)

### Student\_erp

A web-based application designed to manage student data for a school or educational institution. The project uses MySQL as the database management system and Node.js as the server-side scripting language.
